## SUMMARY

"Recent graduate with a Bachelor's in Computer Science, I am passionate about coding and software development. Proficient in languages such as Java, Python. Completed internships where I developed web applications and gained experience in Agile methodologies. Eager to learn different skills and contribute to innovative projects as part of a dynamic software engineering team".

## EDUCATION

**Computer Science and Engineering** 10/2020 - 04/2024

Miracle Educational Society Group of Institutions - Bachelor' s of Technology

8.0 GPA

- Coding Competition:  
Participated in different coding competition like Hacker Rank, Coding Ninjas etc.
- Internship Contribution:  
Successfully completed Machine Learning and Data Science Internship and received positive feedback from the instructor.
- Academic Excellence:  
Graduated with honors and completed the project which is challenged.
- Teamwork and Collaboration:  
Successfully collaborated on group projects and contributed to a team achieving a specific goal.

**Mathematics. Physics. Chemistry** 08/2018 - 04/2020

Sri Chaitanya Junior college – Intermediate

8.71 GPA

I have written JEE MAINS exam and I have scored 987 Rank

**St. Francis de sale’s School – School**

9.2 GPA

INTERNSHIPS

Homely Hub:  
EMERTXE

02/2024 04/2024

I have developed a strong skills in building a Homely Hub project using MERN Stack like Mongo DB, Express JS, React JS, Node JS. In this website We can book the places, rooms and we can add no of guests. According to Filters we can adjust the amount with different accommodations and it displays the Payment page. It is user friendly website. Customers can easily access this website without any issues.

Travelling Around the World:  
IBM

06/2023 - 08/2023

I have developed a strong skills in whole Internship we have developed a website called Travelling Website which the customer or the user can book the place with different facility and problem doesn't occur while booking to any place. To develop this website we have used only Frontend Technologies like Java Script, Cascading Style Sheet, Hyper Text Markup Language. To design this user friendly website it takes two months.
